

We provide a safe and caring working environment for people with disabilities. We also support those whose mental health benefits from the calm and therapeutic natural setting within the Walled Garden. Our gardeners work together, learn new skills, make new friends and support our local community through local gardening contracts and plant sales, 'Growing together' at the heart of the community.

Thank You

A huge 'thank you' for all your kind support during our first year as a charity. We had a wonderful 1st birthday celebration on 1st June with over 60 people in the garden. We also officially opened our new chalet – to be known as 'The Clubhouse' – which provides much needed indoor space for our gardeners to work, rest and learn. The additional news is that due to your wonderful generosity the Clubhouse project is now PAID IN FULL.

This really is fantastic!

As well as its use by our gardeners, the Clubhouse is now being used by the community evenings and weekends, including the Church Youth Group and an exercise class.

Accessibility

Our next project is to create wheel chair access paths linking the garden, meadow and orchard. The paths will be of enormous benefit to wheel chair users and will also help to open up these areas to visitors who'd prefer a smooth and mud-free surface. Exciting times!

Out and About

We are delighted to announce that our gardeners have just commenced a contract with Abbeyfield to maintain their gardens in the village. This is a big step for us in providing a real-work environment for our gardening team and increasing our engagement with the community. We plan to take on additional contracts locally so do please 'give us a wave' if you see us out-and-about....

One year 'Growing together'

In our first year, with your help, we've increased the number of gardener sessions we deliver each week by over 20%. This is great news. We're helping more people and changing more lives for the better.

A new family arrived in the garden in May to take up residence in their new home. We were delighted to welcome the bees which in addition to pollinating the orchard are also providing really interesting work for our gardeners and the hope of 'Walled Garden Honey' for sale shortly.....
